I

Re: Ana Biocini
DOB: 06.30/1954
Country of Origin: Colombia
A #: 091182333

AFFIDAVIT OF ABNER P. KORN, M.D.

I, Abner P. Korn, M.D., hereby declare under penalty of perjury that the following is true to the best of my knowledge:

1. I am Abner P. Korn, M.D.
 - a. I am an obstetrician/gynecologist with an active practice at the University of California at San Francisco Women's Continence Center at the University of California at San Francisco/Mount Zion Medical Center. I am also the director of the Women's Gynecologic-Urology Clinic at San Francisco General Hospital. I have a special interest in female urology, incontinence, vaginal surgery and gynecologic infections. Over the last 20 years I have devoted my clinical practice to treatment of women who have pelvic organ prolapse and urinary incontinence.
 - b. I graduated from Yale Medical School in 1984. I completed my residency at University of California, Los Angeles in 1988.
2. Ms. Biocini's legal representation, the University of California at Davis Immigration Law Clinic, sought my assistance in reviewing the client's medical records. I did not meet with Ms. Biocini in person. However, I reviewed her medical records from Kern Correction Facilities and Kern Medical Center on 11/25/07 in San Francisco, California.
3. Based upon my review, I have arrived at the following conclusions:

Conditions:

Based upon the information in her medical records, I found that Ms. Biocini is suffering from the following conditions:

Pelvic Organ Prolapse

Pelvic organ prolapse is a condition in which structures such as the uterus, rectum, bladder, urethra, small bowel, or the vagina itself may begin to prolapse, or fall, out of their normal positions. Without medical treatment or surgery, these structures may eventually prolapse farther and farther into the vagina or even through the vaginal opening if their supports weaken enough.

The symptoms that result from vaginal prolapse commonly affect sexual functions and bodily functions such as urination and defecation. Pelvic pressure and discomfort are also common symptoms. When the prolapse becomes severe, women may have difficulty with ambulation or even sitting.

Rectal Prolapse

Rectal prolapse is a condition in which the rectum (the lower end of the colon, located just above the anus) turns itself inside out. In the earliest phases of this condition, the rectum does not stick out of the body, but as the condition worsens, it may protrude. Weakness of the anal sphincter muscle is often associated with rectal prolapse at this stage and may result in leakage of stool or mucus. The condition occurs in both sexes, although it is more common in women than men.

5. Conclusions and Recommendations

Either of these conditions could worsen in the future, especially if Ms. Biocini's constipation were untreated, if she were to smoke cigarettes (as coughing will worsen both of these) or if she did heavy lifting. The uterine prolapse condition also affects the quality of life.

If the rectal and utero/vaginal prolapse were left untreated, the degree of prolapse would be expected to worsen. This can have a significant impact on quality of life due to interference with urination and defecation as well as interfering with activities such as walking and sitting. Sometimes the prolapsed tissue will develop ulcers that can be painful.

As the prolapse enlarges and the protruding tissue becomes edematous and ulcerated, surgical repair becomes increasingly difficult and morbid, often complicated by large blood loss and postoperative infections. Furthermore, the prognosis for recovery of normal pelvic floor function following surgery is adversely impacted by a long delay in surgical repair.

I would definitely treat constipation most likely with a combination of fiber supplementation (psyllium) and a "bowel recipe" (wheat bran, apple sauce and prune juice) as well as stool softeners and senna if necessary. If she could not be fitted with a pessary, I would recommend surgical treatment.

Dated: January 29, 2008

Abner P. Korn, M.D.

ABNER PAUL KORN, M.D.**CURRICULUM VITAE**

PERSONAL DATA

Position: Professor of Clinical Obstetrics, Gynecology and Reproductive Sciences, Step II (July 1, 2003)
University of California, San Francisco

SFGH Office Address: San Francisco General Hospital
1001 Potrero Avenue, Ward 6D-17
San Francisco, California 94110

phone: (415) 206-5108
FAX: (415) 206-3112
email: korra@obgyn.ucsf.edu

Mt. Zion Office: 2330 Post Street, Suite 220
San Francisco, CA 94143-1648

phone: (415)-885-7788

Date of Birth: November 21, 1957

Marital Status: Married, two children (Hannah and Evan)

EDUCATION

Premedical:	University of Pennsylvania Philadelphia, PA Bachelor of Arts, Chemistry	1975 - 1979
Medical School:	Yale Medical School New Haven, Connecticut Doctorate of Medicine	1980 - 1984
Internship:	Department of Obstetrics and Gynecology University of California, Los Angeles Los Angeles, California	1984 - 1985
Residency:	Department of Obstetrics and Gynecology University of California, Los Angeles Los Angeles, California	1985 – 1988

BOARD CERTIFICATION

California License #:	G55522 (11/30/08)
DEA #:	BK0426684
Diplomat, American Board of Obstetrics and Gynecology	11/13/91
Voluntary recertification	2000
Recertification #884688	2001,2002, 2003, 2004, 2005 (4/30/2007)
Fellow, American College of Obstetricians and Gynecologists	3/31/93
HIPAA Research training UCSD HRPP HIPAA ID: H01519	4/25/03-4/24/05
HIPPA Advanced Training	4/19/05
UCSF Human Subject Protections: Basic Course	4/24/2003
Pain Management/ End of Life Training: AMA online course 12 hours	4/12-5/17/06
UCSF Sexual Harassment Training online course 2 hours	10/17/07
Clinical Research Training for Investigational Site Personnel Training	10/12-19/07

PRINCIPAL POSITIONS HELD

Professor of Clinical Obstetrics, Gynecology and Reproductive Sciences

Department of Obstetrics, Gynecology and Reproductive Sciences,
University of California, San Francisco

July 1, 2003-present

Clinical Professor

Department of Obstetrics, Gynecology and Reproductive Sciences,
University of California, San Francisco

July 1, 2000-June 30,
2003

Associate Clinical Professor

Department of Obstetrics, Gynecology and Reproductive Sciences,
University of California, San Francisco

July 1, 1994-June 30,
2000

Assistant Clinical Professor and Director of Gynecology (SFGH)

Department of Obstetrics, Gynecology and Reproductive Sciences,
University of California, San Francisco

August 1, 1990-June 30,
1994

OTHER POSITIONS HELD CONCURRENTLY

Director of Gynecology**Associate Chief for Clinical Services**

San Francisco General Hospital
present

January 1, 1994-

Acting Chief, Department of Obstetrics and Gynecology

San Francisco General Hospital
2003-

November 1,

September 30, 2004

Visiting Physician Instructor

Gunung Wenang and Gunung Maria Hospitals

Tomohon and Manado, North Sulawesi, Indonesia

January 1- March 1, 1990

Assistant Clinical Professor (Compensated without salary)
Department of Obstetrics and Gynecology
University of California, Los Angeles

July 1, 1988-
September 30, 1990

Physician Specialist
Department of Obstetrics and Gynecology
Los Angeles County - Olive View Medical Center
Sylmar, California

July 1, 1988-
September 30, 1990

AWARDS

ACOG/CREOG National Faculty Award 2006

ACOG/CREOG National Faculty Award 2004

UCSF: Chief Resident's Teaching Award 1992
Outstanding Faculty Teaching Award 1992

ACOG / Novartis Grant for research in the endocrinology of the post reproductive women.
" Function and Correlation of Estrogen Receptor Alpha and Beta and Other
Connective Tissue Components in Stress Urinary Incontinence "
(Tony Tsai, M.D., Abner P. Korn, M.D. Robert Jaffe, M.D.)

KEYWORDS/AREAS OF INTEREST

Urinary incontinence, pelvic organ prolapse, gynecologic infectious diseases, lower genital tract neoplasia, surgical skills education and evaluation

CLINICAL ACTIVITIES

1. Direct the Gynecology Service at San Francisco General Hospital,
2. Conduct a urogynecology clinic and an outpatient surgery clinic.
3. Coordinate scheduling for all clinical activities in Ob/Gyn at SFGH.
4. Perform all surgical procedures for pelvic organ prolapse and urinary incontinence that are done by our department at SFGH.
5. Conduct a urogynecology clinic at UCSF/Mount Zion
6. Perform surgical procedures for pelvic organ prolapse and urinary incontinence at UCSF/Mount Zion
7. Outreach to and assistance of community physicians in Northern California with surgical procedures for pelvic organ prolapse and urinary incontinence.

PROFESSIONAL ASSOCIATIONS

American College of Obstetricians and Gynecologists
American Urogynecology Society
International Urogynecological Association
Infectious Diseases Society for Obstetrics and Gynecology
San Francisco Gynecological Society
Society of Gynecologic Surgeons

EDITORIAL POSITIONS

Reviewer: JAMA, Obstetrics and Gynecology, American Journal of Obstetrics and Gynecology, AIDS, Journal of Acquired Immune Deficiency Syndromes and Human Retrovirology, Clinical Infectious Disease, Gynecologic Oncology, Fertility and Sterility, Southern Medical Journal, Western Journal of Medicine, "Contraceptive Technology". Infectious Diseases.

PRESENTATIONS (>2000)

Residents Core Lectures:

"Pelvic organ prolapse"	10/2/01
Gynecologic surgery workshop	3/20/01, 6/22/04, 3/29/05, 6/14/05 7/19/05, 7/26/05, 8/16/05
"Basic Colposcopy"	11/12/02
"Surgical site infection"	8/27/02
"Electrosurgery"	9/17/02
"An evidence-based approach to vaginitis"	11/12/02
Surgical Skills Training and Evaluation:	6/10/05, 7/19/05, 7/26/05, 8/16/05, 10/18/05

Medical Student:

"Abnormal Pap Smear"	ongoing, 1990- present
"Pelvic Masses"	ongoing, 1990- present

Grand Rounds:

Chico Enloe Hospital: "Diagnosis and Treatment of Urinary Incontinence in Women"

UCSF-Fresno: "Medical management of urinary incontinence"	1/25/01
Redwood Memorial Hospital "Update on hormone replacement therapy"	5/8/99, 5/11/01
Mad River Hospital, Arcata "Update on hormone replacement therapy"	8/29/01
Eureka General Hospital "Update on hormone replacement therapy"	8/30/01
UCSF: "An evidence-based approach to vaginitis"	8/29/01
Cedars-Sinai Medical Center: "Gynecologic care of women infected with HIV"	10/23/01
	10/24/01
UCSF-Fresno University Hospital "Pelvic inflammatory disease: new diagnosis and treatment guidelines"	3/20/02
UCSF-Fresno VAMC "Pelvic inflammatory disease: new diagnosis and treatment guidelines"	3/20/02

UNIVERSITY AND PUBLIC SERVICE

University:

Acting Chief of Obstetrics and Gynecology at SFGH during Dr. Darney's sabbatical
 (November 1, 2003- September 30, 2004)
 Committee on Human Research Member (June 1, 2000- May 31, 2002)

Community/Public:

Coalition Sunday Lunch for Homeless Project
 "Fill a Barrel a Week": Marin Community Food Bank
 Kol Shofar Blood Drive
 Assistant Coach Mill Valley Little League
 Assistant Coach Mill Valley Soccer Club

DEPARTMENTAL AND HOSPITAL RESPONSIBILITIES

Director, Gynecology Service, San Francisco General Hospital	1/1/94-present
Medical Director Gynecology Clinic	1/1/90-12/31/04
Site Director Medical Student Rotation	7/1/92-6/30/94
Advisory Committee to the General Clinical Research Center	1/1/99-12/31/04

HOSPITAL APPOINTMENTS

San Francisco General Hospital	(Active)	
12/31/2008		
UCSF/Mt. Zion Medical Center (Attending)		1/1/2008
Marin General Hospital (Courtesy)		12/6/2009

PROFESSIONAL COMMITTEES / HOSPITAL RESPONSIBILITIES

Committee on Human Research	UCSF 6/00-present
Residency Council	UCSF 1996-present
Tissue Committee	SFGH 1990-3
Education Committee	UCSF 1991-3
Operating Room Committee	SFGH 1992-5
Laser Committee	SFGH 1992 to present Chair 1995 to 2002
Minimally Invasive Surgery Committee	1994 to 2002
Infection Committee	1995 to 1998
Cancer Committee	1998-present
Performance Improvement and Patient Safety Committee	2003-present
Obstetrics/Gynecology Consultant, HRSA/AIDS Education and Training Centers, National HIV Telephone Consultation Service (Warmline); UCSF Department of Family and Community Medicine;	1993-present.
UCSF Management of Abnormal Cervical Cytology Guidelines Committee	1998-2000

TEACHING AND MENTORING RESPONSIBILITIES

1. Medical student lectures: Pelvic masses every 6 weeks.
2. Medical student teaching in rounds, departmental patient care conferences and in the operating room.
3. Resident Advisor for Tania Esakoff, R3.
4. Surgical training orientation for the incoming R1 class.
5. Surgical skills training and evaluation laboratory for all resident levels (about 6 sessions per year).
6. Lectures on surgical technique (hysterectomy, electrosurgery, surgical site infection, etc.).
7. Extensive contact with residents on the SFGH gynecology service especially during their R2-R4 years.
8. Urogynecology clinic and outpatient surgical procedure clinic during one whole day each week with an R3.
9. Rounds, departmental patient care conferences and in the operating room supervision and training of residents.
10. Supervise residents on Labor and Delivery.
11. Supervise and teach residents in the Abortion clinic.
12. Occasionally supervise residents in other SFGH clinics (colposcopy, gynecology.)
13. Teach residents from the Department of Family Medicine in my Urogynecology clinic (one morning per week).
14. Lecture to the Department of Family Medicine on gynecologic topics.
15. Mentor for Dr. Sharon Knight (Ob/Gyn@UCSF)
16. Mentor for 3rd year medical students on Ob/Gyn clerkship at SFGH.
17. Supervise Advanced Gynecology Clerkship at SFGH.

TEACHING AIDS

Urogynecology syllabus: 2 editions produced between 1991 and 2001 now consisting of 3 modules given to R3 resident with whom I work in Urogynecology clinic along with pre and post testing.

TEACHING AWARDS

ACOG/CREOG National Faculty Award	2004, 2006
UCSF: Chief Resident's Teaching Award	1992
Outstanding Faculty Teaching Award	1992

TEACHING/MENTORING HOURS

03/04: 850 (day) + 480 (night call) – Total 1330
 04/05: 850 (day) + 480 (night call) – Total 1330
 05/06: 850 (day) + 480 (night call) – Total 1330
 06/07: 850 (day) + 480 (night call) – Total 1330
 07/08: (anticipated) 850 (day) + 480 (night call) – Total 1330

TEACHING NARRATIVE

Recent changes in my teaching activities include revising the manner in which I teach residents urogynecology. Previously, I gave them a large syllabus for their reference. Currently, I am giving them modules consisting of portions of the syllabus along with reprints of important publications and am following their progress with each module. I have also begun performing pre and post training testing.

I have made a major effort in developing a surgical skills evaluation and training program for our residents. Along with Dr. Meg Autry, I have initiated a program with laboratory sessions that will include skill training and evaluation in inanimate, animate and cadaver models.

CURRENT RESEARCH INTEREST

HPV vaccine. (**PI for SFGH site of several vaccine trials for the GSK HPV vaccines, member of publications committee for the HPV study group**)

HIV infection, pelvic inflammatory disease and lower genital tract neoplasia (**Member of NIH-ASCCP Research Group: investigating correlation of colposcopic appearance and HPV testing, histology results.**)

Teaching and evaluation of vaginal surgery to residents. (**Member of Society for Gynecologic Surgery multi-center study of Objective Assessment of Vaginal Surgical Skills**)

Diagnosis of pelvic inflammatory disease

Bacterial vaginosis and upper genital tract inflammation

Epidemiology of urinary incontinence

Surgical treatment of urinary incontinence

FUNDING

A Phase IIB, Blinded, Multi-Center, Long-Term Follow-Up Study of the Efficacy of Candidate HPV-16/18 VLP Vaccine in the Prevention of HPV-16 and/or HPV-18 Cervical Infection in Adolescent and Young women in North America and Brazil. (\$ 56,545) (SFGH Site Principal Investigator: 1/16/04 -present)

Improving abnormal Pap smear follow-up among ethnically diverse women. The California Endowment (\$145,000) (Principal Investigator 8/22/02-9/30/04)

Computerized Guidelines-Managing Urinary Incontinence. Phase I. NIDDK (1R43DK60297-01) (\$120,141). (SFGH Site Principal Investigator: 10/3/01-4/3/03)

A study of the safety and efficacy of lasofoxifene in the treatment of vaginal atrophy in postmenopausal women. #A218-1012-5187 (\$59,932) (SFGH Site Principal Investigator: 7/3/03-12/30/04)

A double blind, placebo controlled randomized pilot phase IIB study of the efficacy of an HPV-16/18 VLP vaccine in the prevention of HPV-16 and or HPV-18 cervical infection in healthy adolescent and young adult women in North America and Brazil. SKB 580299/001 (\$85,540) (SFGH Site Principal Investigator: 2/14/01- 9/30/04)

A multicenter epidemiology study to evaluate the prevalence of HPV infections in adolescent and adult females in North America and Brazil. SKB-106 (\$52,000) (SFGH Principal Investigator: 9/20/00-8/18/01)

A safety and tolerability study of SGN-00101 therapy utilizing a single dose in subjects with confirmed CIN II/III cervical disease. Stressgen Biotechnologies Corp Protocol # ST-CX-1-01-98 (\$41,500) (SFGH site Principal Investigator: 1/11/98-1/6/00)

A double blind randomized placebo-controlled study to evaluate the efficacy of Smithkline Beecham Biologicals' Herpes simplex candidate vaccine (gD2t) with MPL and its efficacy to prevent genital herpes disease in HSV positive or negative consorts of subjects with genital herpes disease. (\$73,328) (SFGH site Principal Investigator: 9/27/96-4/27/02)

Double blind study of Lupron Depot plus iron versus placebo plus iron in the pre-operative treatment of iron deficiency anemia secondary to leiomyoma uteri induced excessive uterine bleeding- Protocol M92-816TAP Pharmaceuticals (\$43,484) (SFGH Site Principal Investigator:- 11/15/94)

A randomized, multicenter, double-blind multicenter trial assessing the safety and efficacy of intravenous CP-116,517 followed by oral CP-99,219 compared with intravenous cefoxitin followed by oral amoxicillin/clavulanic acid for the treatment of acute pelvic infections. Pfizer Protocol 154-144 (\$33,000) (SFGH Site Principal Investigator – 4/15/97)

A randomized, multicenter, double-blind comparative trial of CP-99,219 with ofloxacin/clindamycin for the treatment of acute pelvic inflammatory disease in ambulatory patients. Pfizer Protocol 154-125 (\$30,000) (SFGH Site Principal Investigator – 10/1/96)

A randomized, multicenter, double-blind comparative trial of CP-116,517/CP-99,219 with cefoxitin/doxycycline for the treatment of acute pelvic inflammatory disease in hospitalized patients. Pfizer Protocol 154-122 (\$38,770) (SFGH Site Principal Investigator – 4/15/97)

A prospective, multicenter study to evaluate MK-0826 vs. piperacillin/tazobactam in treatment of acute pelvic infections. Merck protocol 023-02 (\$48,000) (SFGH Site Principal Investigator: 10/28/99-12/8/00)

RESEARCH SUMMARY

1. A double blind, placebo controlled randomized pilot phase IIB study of the efficacy of an HPV-16/18 VLP vaccine in the prevention of HPV-16 and or HPV-18 cervical infection in healthy adolescent and young adult women in North America and Brazil. I am on the Publications Committee for this international study of a new HPV-vaccine. (Funding: Glaxo Smith Kline)
2. Improving abnormal Pap smear follow-up among ethnically diverse women. A prospective study at SFGH and the Community Health Network Clinics that seeks to identify factors associated with adherence to abnormal Pap smear follow up among ethnic and racial minority women. Priscilla Abercrombie and I hope to find specific interventions that might be applied in a prospective study that could improve patient adherence. (Funding: The California Endowment)

Sick Call Request**Last Name (Apellido)****First Name (Primer)****Middle (Mediano)****Date
(Fecha)****Book Number
(Número)****Housing Location
(Unidad de vivienda)**

You will be charged a \$3 co-pay for sick call visits except in cases of emergency treatment, follow up visits as directed by medical staff, and certain services as described in the inmate orientation brochure. If you have no money on your account, you will not be charged and will still receive medical services. Contract Inmates (State and Federal) are exempt from this charge.

Se va cobrar tres dolares (\$3) para vistas de enfermedad. Excepto en el caso de tratamiento de emergencia o vistas que le indica el doctor/enfermera y ciertos servicios indicados en el folleto de orientacion de presos. Si no tiene dinero en su cuenta, no se le cobrara para recibir servicios medico. Presos contratados (estatales y federales) son exentos de estos cargos.

Mrs. Beatriz BIOCINI was seen and evaluated and a hysterectomy was recommended due to prolople. However, she feels strongly and refused hysterectomy. She would only like the removal of the prolople. She fully understands the risk of failure. All questions were answered.

 - Clear Soups
 - Pedialyte, Lytron
 - DO NOT DILUTE PEDIALLYTE
 - Soft diet after liquid diet for 8 hours. No raw vegetables or fruits

 VOMITING

- Clear liquid diet (see above) but in frequent small amounts only
- Watch for signs of dehydration (see below)
- Call your doctor if you notice blood in the vomitus

 DIARRHEA

- Clear liquid diet (see above)
- If not vomiting and keeps clear liquids down you may try fresh ripe bananas that have been mashed. Also dried toast may be tried.
- Call the MD if you see blood in the diarrhea
- Watch for signs of dehydration (see below)
- Return to Clinic sooner or _____ to ER _____ call us if
 - Fever or _____ not better in 3 days
 - Chest pains

 WOUND CARE

- Keep wound covered until rechecked
- If dressings get wet or dirty you should change them _____ call your MD or the ER
- Leave wound open to the air
- You may wash the wound after _____ days
- Return for wound check in _____ days
- Sutures to be removed in _____ days
- Limit movement of the affected part
- Elevate the injured part higher than your heart, to decrease swelling and improve healing for _____ hours.
- Cool packs to the area to prevent swelling and pain for _____ hours

DESPITE THE GREATEST CARE, ANY WOUND CAN BE INFECTED. RETURN IMMEDIATELY OR SEE YOUR DOCTOR IF SIGNS OF REDNESS, SWELLING, PUS OR RED STREAKS OCCUR, OR IF THE WOUND FEELS MORE SORE INSTEAD OF LESS SORE AS THE DAYS GO BY.

Comments: No meat, beans, or carry - 10/10/07Approved By (Medical or Dental Signature): [Signature]Inmate/Detainee signature: [Signature]

I have been counseled, understand the terms and agree to the conditions of this diet plan. I also realize that if I should fail to pick up and sign for my diet at every meal, the diet plan may be canceled.

No weight reduction diets are to be ordered using ADA diets. Use low fat/low salt diet for life threatening cases of weight control. Vegetarian diets are not a medical problem and will not be ordered on this form.
